EDUCATION

•R V Institute Of Technology And Management, Bengaluru

2023-2027

B.E in CSE, 7th Semester

CGPA: 8.45

EXPERIENCE

•IIT Ropar

March 2026 – June 2026

Project Intern

Remote

- Built AI-powered applications using RAG, LLMs, LangChain, and the MERN stack.
- Integrated MongoDB with MERN applications and contributed to scalable web solutions.

•Ultimez Technologies

March 2025 – October 2025

Backend Developer

Hubballi (Remote)

- Contributed to backend development by creating secure, scalable APIs for client projects.
- Collaborated with cross-functional teams to deliver scalable backend solutions.

PERSONAL PROJECTS

•CBPA Studio (Buylytics): Customer Segmentation & Analytics Platform 🚀

May 2026

ML-powered analytics platform for customer segmentation using RFM analysis and K-Means clustering

- Built an end-to-end analytics dashboard using ReactJS, FastAPI, and Python to perform RFM analysis and customer segmentation with K-Means clustering.
- Developed interactive modules for dataset validation, cluster diagnostics, customer segment visualization, and business insight generation.

•LabPilot 🚀

Dec 2025

AI-Powered Academic Assistant for Intelligent Document Retrieval Using Retrieval-Augmented Generation (RAG)

- Built an AI-powered academic assistant using ReactJS, FastAPI, Python, LangChain, and FAISS to enable context-aware interaction with academic documents through Retrieval-Augmented Generation (RAG).
- Developed a scalable RAG pipeline for PDF processing, semantic search, and accurate AI-powered question answering using document embeddings and intelligent context retrieval.

•Tibl.ai 🚀

Sept 2025

Intelligent Academic Timetable Generation and Management Platform

- Built an AI-powered academic timetable platform using ReactJS and Python to automate timetable generation for educational institutions.
- Designed an intelligent scheduling engine to generate conflict-free timetables while optimizing faculty, classroom, and course allocations.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, C, C++, Java, JS, TS, CSS, HTML

Developer Tools: VS Code, Anaconda, Git, GitHub, Jupyter Notebook, Postman, IDLE

Frameworks: React, Node.js, Express

Cloud/Databases: MySQL, MongoDB

Soft Skills: Problem-solving, Team collaboration, Communication

Coursework: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning

Areas of Interest: Web Development, Artificial Intelligence, Cloud Computing, Software Engineering

POSITIONS OF RESPONSIBILITY

•Club Member, The Starfleet Club RVITM

2yr
